ARE YOU INTERESTED IN SCIENCE?

We invite grade 10-12 students interested in science to join us for the Canadian Medical Hall of Fame *Discovery Days in Health Sciences*. Offered in partnership with universities, hospitals, and research institutions across the country, Discovery Days are one-day events that give secondary school students the opportunity to explore a variety of career options in medicine and the health sciences. Students gain a clearer picture of what it would be like to be a health professional by interacting with researchers, clinicians and educators in their real-life work setting. The day includes a dynamic keynote lecture, interactive workshops and a career panel discussion.

The Canadian Medical Hall of Fame is committed to fostering inclusion and supporting the leadership efforts at Canadian universities to change the diversity pathway to medicine and the health sciences. We encourage students who self-identify as Indigenous, Black or a Person of Colour, or who come from a rural or known disadvantaged socioeconomic background to attend this event.

LEARN MORE

I really liked everything and felt I learned a lot about health sciences. I feel more prepared about making future schooling decisions and have better insight about what I would like to do and how to get there. Today was great and I had lots of fun!

- Discovery Day Participant (Student)

To take part in Discovery Day or get more information, talk to your guidance counsellor or science teacher today!
